Healthcare Facilities and Flood Extent: Cumilla District, Bangladesh
First Satellite Observation Period: 18–26 August 2024 (Spatial Exposure)

Sources: UNOSAT (Product 3954, Period 1: 18–26 Aug 2024), OpenStreetMap Healthcare, geoBoundaries ADM2
Observation Period Displayed: 18–26 August 2024 (First Observation Period)
Important Note: OpenStreetMap records represent mapped spatial facilities, not field-verified operational capacity.
Facility exposure denotes spatial intersection with 10m radar-derived water extent, not verified structural damage.
